

Use of Gutenberg Room

Dear User of the Gutenberg Room,

We are pleased about welcoming you at the German Science Centre in Cairo and providing the service of the Gutenberg Room. The Gutenberg Room features a quiet working environment but also excellent conditions for meetings and working together of German and Egyptian scientists. We hope to be able to support your scientific research and academic exchanges.

We kindly ask you to follow a few principles:

- Open during the week from 10 am - 4 pm
- Closed in August
- Use of the room up to 4 weeks possible
- We crave your indulgence that the room is occasionally used for events of the DWZ; We try to communicate long beforehand
- Thank you for your understanding that we unfortunately cannot offer you to attend the lunch as this exceeds the capacity of our kitchen

We wish you a pleasant and successful stay.
